To whom it may concern:

This letter is to inform your organization that our firm has modeled, inspected and tested the homes built by Farrell Thurston Construction, LLC, both for energy efficiency programs like Energy Star and Energy Efficiency Tax Credit, as well as for the GreenBuild New Mexico Program, and their building standards will easily achieve the various levels of green certification.

If you need additional references and/or support, please do not hesitate to contact us directly.

About SENERCON:

Senercon is a Certified Home Energy Rating (HERS) Provider Company which introduced the Energy Star Homes Program to El Paso, Las Cruces and surrounding markets with great success, certifying and inspecting more than 2 (two) thousand homes in these markets and serving more than 100 Homebuilders. Additionally, our firm provides training to subcontractors, architects, designers, building material suppliers and sales agents to create the necessary infrastructure to make energy efficiency a standard practice in our community.

Senercon has been nationally recognized 3 consecutive years by the US EPA as an Energy Star Partner of the Year in 2006, 2007 and 2008 for its outstanding contribution to reducing greenhouse gas emissions and improving the energy efficiency of homes by its work as a home energy rater analyzing and testing the energy efficiency of homes.

At your service,

L. Javier Ruiz – LEED AP
